Remote Work and Attendance Policy

Document ID: NL-HR-002 | Version: 1.8 | Effective: 1 June 2026 | Owner: People Operations (HR)

1. Hybrid Work Model

Nimbus Labs follows a hybrid model by default. Employees work from the office 3 days a week on Tuesday, Wednesday, and Thursday, and work remotely on Monday and Friday. Teams may agree on a different pattern with their department head, but every employee must be in the office for at least 12 days per month.

Core collaboration hours are 11:00 AM to 4:00 PM IST. Employees must be reachable on Slack and available for meetings during these hours, wherever they work from.

2. Fully Remote Arrangements

Fully remote work is available only for roles that are approved as remote in the job description, or by written approval from the Director of Engineering or the Head of People. Fully remote employees must still travel to the Jaipur office for quarterly planning weeks (one week each in January, April, July, and October). Travel costs for these weeks are covered under the Expense and Reimbursement Policy (NL-FIN-001).

3. Work From Anywhere (WFA)

Location	Limit per year	Approval needed
Within India	Up to 20 working days	Reporting manager
Outside India	Up to 10 working days	Reporting manager, Head of People, and IT Security (for data and tax review)

Requests must be raised at least 15 days in advance for travel outside India. Employees working abroad must use the company VPN, and work in a country with a working-hours overlap of at least 4 hours with IST. Employees are responsible for any visa or local tax implications of working abroad.

4. Home Office Support

- One-time home office allowance of INR 15,000 after confirmation, for a desk, chair, or monitor. Receipts are required.
- Monthly internet and electricity reimbursement of INR 1,000, paid through payroll to employees who work remotely at least 8 days a month.
- A company laptop is issued to every employee on day one. Peripherals such as a keyboard and mouse can be requested from IT Self Service.

5. Attendance and Working Hours

- Standard working hours are 9 hours per day including a 1-hour break, for 5 days a week.
- On office days, attendance is recorded by badge swipe. On remote days, post a check-in in the #attendance Slack channel by 10:30 AM IST.
- A full day requires at least 8 hours logged. Between 4 and 8 hours counts as a half day, deducted from Casual Leave.
- If an employee misses 3 or more required office days in a month without approved leave or WFA, the manager will hold a conversation, and repeated cases are reported to HR.

6. Meeting and Communication Norms

- Meetings are scheduled only inside core hours unless all attendees agree.
- Every meeting must have an agenda, and cameras should be on for team meetings of 8 people or fewer.
- Urgent production issues use PagerDuty. Slack is for non-urgent communication, with a reply expected within 4 working hours.

7. Security Requirements for Remote Work

All remote work must follow the IT Security and Acceptable Use Policy (NL-IT-001). Use only company-managed devices, connect through the company VPN on public or shared networks, and never work on Restricted data in public places such as cafes or airports.
